

In Kitchen with Mother.

Terry
We learned something in school today.

Mother
(Ruffling through Coupons)
Great honey, that's what school is for.

Terry
Our rabbits had babies.

Mother
They do that.

Terry
The mom and dad both had brown eyes. But some
of the baby bunnies had blue eyes. Is that possible?

Mother
Well it happened, right?

Terry
My teacher says it's a recessive gene.

Mother
Mmmm.(Off coupon) Honey, help me find the 48 ounce Tide.

Terry
Guess what else our teacher said.

Mother
Do you know if we need bleach?

Terry
She said if both parents had blue eyes, they could never
have children with brown eyes.

Mother
I guess she's right about that to.

Terry
So maybe you could explain something. You and Dad
both have blue eyes.....How did that happen
